

## QUICK&EASY ACCESS is the ideal solution for temporary remote access of operators and guests at hotels, campsites and other public venues

*No check-in or check-out time limits, instant bookings, quick confirmations and immediate access to premises without having to wait for the operator.*

**CAME**, a world-leading Made in Italy company in the sector of integrated solutions, presents **Quick&Easy Access**, the new system for **temporary remote access management** of venues like **B&Bs, hotels, campsites, gyms and sports facilities, small logistic hubs, collective workspaces and warehouses, private parking lots and parking areas**.

Entry and exit are simplified so that both guests and in-house staff can enjoy the service 24/7, making the process both efficient and economical.

With **Quick&Easy Access**, the car park operator can control the system in real time: after sending the codes and the access link to the guest, the procedure becomes fully automated and customised. It can also be managed remotely to control the authorisations for entry to the venue's spaces and their activation at any time.

The digitisation process is more convenient for users, including additional benefits such as: instant bookings, quick confirmations and access to the premises without having to wait for the operator to arrive, no queue upon arrival during particularly crowded times and no need to register or download an app. In addition, the facilities can be accessed without time restrictions, since a simple e-mail confirmation of the valid booking from the operator is sufficient as an entry ticket.

Remarkable pluses of **Quick&Easy Access** are also that it does not require structural work on the system but can be installed quickly and easily compared to other traditional systems, providing a wide range of functions that improve the management and monitoring of the services offered.

### CAME

CAME is a leading global brand for high-quality technological solutions and products for automation, smart homes, access control, and security and parking systems that can improve the lives of the people who use them and the work of professionals.

With more than 50 years of history behind it, and even longer experience thanks to the companies that now belong to it, the Group founded by Paolo Menuzzo, now CEO of the holding company, is headquartered in Dosson di Casier, in the province of Treviso, and owns 10 manufacturing sites in Italy, France, Spain, UK, Turkey, and Brazil. Andrea Menuzzo, son of the founder, is the Chairman and CEO of CAME S.p.A. The company has over 1800 employees, serves the market with 27 branches and more than 40 warehouses around the world, and operates in 110 countries worldwide through partners and distributors with an integrated and global vision. In 2022, it recorded a turnover of €298 million.
